Document important information

- When referring to the Eindhovense Student Athletics Association Asterix the word Asterix will be used.
- Data means all stored information about a specific person.

Privacy statement

Asterix takes personal privacy very seriously. However, all data shareholders should take into account that Asterix is run by volunteers. That means the highest level of data protection and personal data protection cannot be guaranteed. Asterix looks with this document for a balance of data protection and workability.

Data use

Asterix uses personal data of all members and old members. It does this for following reasons:

- Regulations of the national athletics association;
- Regulations of the SSC Eindhoven;
- Regulations of Asterix itself.

The data Asterix uses of current members:

- Specific personal data (Name and date of birth);
- Address information;
- Mail address;
- Phone number;
- Study or employment information;
- SSC Sports card membership;
- Bank information;
- Allergies and diet;
- Photo's;
- Sports performance during Asterix membership;

Asterix cannot reasonably function as an association without processing and storing the information stated above. There is, however, one exception. This exception being the sports performance registration. Sports performance registration not being seen as a necessity for the functioning of Asterix means that all members can object to the performance monitoring. Asterix will monitor and store the performance data of every individual member until they object. At which point sports performance will no longer be monitored and stored for the specific member who objected.

Asterix is a volunteer's based association. Only volunteers who were appointed to a committee by the general member assembly have the ability to view the personal data of regular members. Apart from that, every member has the right to see the member list. Which consists of the name and surname of current Asterix member, no other personal information is stated on that list.

External data use
